If any child refuses lunch there will be an option of sandwiches or crackers with a filling. Occasionally our suppliers may not have food in stock which results in our menu changing slightly. However we try our very best for this not to happen.

Babies are offered suitable changes if they are unable to eat lunch that day.

If your child has any dietary requirements and don't feel that the nursery menu is suitable please contact a member of staff who will be happy to help.

The nursery may have some fun days and parties where the menu will change to suit the celebration.
